QBIT SECURITY SERVICES LLC

CAPABILITY STATEMENT | CYBERSECURITY • NIST RMF / ATO • INFRASTRUCTURE SECURITY • OT / ICS

COMPANY OVERVIEW

Louisiana-based cybersecurity and infrastructure security consulting firm focused on practical security authorization support, cloud and enterprise protection, and operational resilience for government missions, small businesses, and civilian critical infrastructure. QBIT offers clearly scoped technical assessments, evidence packages, and corrective-action plans.

CORE COMPETENCIES

ISSO / ISSM & NIST RMF Authorization readiness; NIST SP 800-53 control coordination; system boundaries, SSPs, SAPs/SARs, POA&Ms, control evidence, continuous monitoring and remediation tracking.

Infrastructure security Servers, endpoints, networks, firewalls, remote access, vulnerability management, hardening plans, logging, recovery controls and technical risk registers.

OT / ICS / SCADA Civilian utility and building-automation security reviews; IT/OT boundaries, asset visibility, vendor access, risk-based segmentation, control-system continuity and NERC CIP readiness where applicable.

Cloud, identity & cryptography AWS, Azure, Microsoft 365/Entra, IAM/MFA/PAM, PKI and certificates, Zero Trust alignment and post-quantum transition-readiness assessments.

Security operations & IT support Incident readiness, tabletop planning, monitoring and escalation procedures, NOC coordination, Tier 1.5/2 enterprise support, technical documentation and small-business security reviews.

REPRESENTATIVE DELIVERABLES

SSP / POA&M support packages • Security gap assessment • Prioritized remediation roadmap • Infrastructure hardening plan • IT/OT boundary review • Cloud / identity control evidence • Continuity and incident-readiness documentation

RELEVANT KEY-PERSONNEL EXPERIENCE

10+ years of individual cybersecurity, cloud, IT operations and operational-technology experience supporting missions associated with U.S. Air Force AFCEC / Civil Engineer Control Systems, DHS/CISA, TSA, and HHS/NIAID. Experience includes federal RMF/ISSO functions, TSA enterprise/NOC support, Azure/AWS security, IAM, and building-automation/industrial environments.

DIFFERENTIATORS

- Bridges federal authorization requirements with hands-on cloud, enterprise and OT operations.
- Focused on civilian essential services, actionable findings and operational continuity.
- Flexible, limited-scope support with clear deliverables and practical remediation priorities.

BUSINESS IDENTIFIERS

Legal name: QBIT Security Services LLC
Location: Bossier Parish, Louisiana
